- HTML/CSS

Muhammad Shahzaib

FULL-STACK DEVELOPER

Hi, I'm Shahzaib, a Full-Stack Developer from UAE/Pakistan with a focus on MERN Stack Development for the last 6 years.

Apart from that, I have two years of experience as a Lead Developer with five developers working directly under me.

I have specialized in responsive web and application development for startups and small to large size businesses. My skill set includes wide-ranging expertise in Javascript, Python, Java, Node.js, AWS, MongoDB, GCP, Firebase, and a whole host of other technologies, and libraries. Whatever your needs are, I will find a solution that fits them.

One of my specialties is taking an idea from scratch and creating a full-fledged platform.

Experience

2020 - Present

Vaionex | Delaware, USA

Senior Full-stack developer

I am working as a Full-stack and Lead developer at Vaionex since last 2 years.

Vaionex provides blockchain solutions. I have worked and led some great projects, here are some of them:

- Relysia: It is a BitcoinSV crypto wallet
- Satolearn: It is a Blockchain learning platform.
- Musicart: It is a music NFTs trading platform built on BSV.
- Metashard: It is a database solution for bitcoin transactions.
- ApiAndMe: It helps to connect APIs to the world with bitcoin micropayments.
- Dojo Discover: It is a platform where investors can invest in Web 3.0 startups.

2019 - 2020

Upwork | US

Full-stack developer

I was Top Rated freelancer on Upwork in 2020. I worked with 20+ clients mostly working on Next.js and express.js. You can check out reviews from my profile.

- Upwork
- Fiverr
- Developed 12+ applications following Agile product development methodologies.
- Developed code following common security practices and development design patterns
- Built 10+ custom interfaces using Wireframes

2018 - 2019

Hasati | California, US

MERN-stack developer

I was working as a MERN developer in Hasati, mostly working on React.js and Node.js, building admin panels that handle realtime telecom data.

- Designed and developed user-friendly admin panels on React.js, including an optimized check-out page that increased user clicks, and subsequently customer purchases by 20%

Languages

- English
- Hindi
- Urdu

Skills

- Full Stack Development
- Project Management
- Project Lead
- Database Management
- Testing & Debugging
- Team Lead

- Fixed bugs from existing websites and implemented enhancements that significantly improved web functionality and speed
- Developed dynamic and interactive websites that ensured high traffic, page views, and User Experience, resulting in 40% increase in sales revenue

2017 - 2018

Axiom I Pakistan

Front-end developer

I was working as a front-end developer in Axiom. I was mostly working using MERN Stack

- Performed quality control testing using Jest/Enzyme.
- Collaborated with external programmers to coordinate delivery of 6 new software applications.
- Developed full-stack web applications which processed, analyzed, and rendered data visually.

2016 - 2017

Freelancer

MERN-stack developer

As a freelancer, I have worked on 12+ different projects during this period. I was working mostly on the backend side using Nodejs, Java, and Python.

- Collaborated on the Complexity Score tool, which removed process bottlenecks by assigning scores to cost, time, and compliance issues, increasing efficiency by 72%.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction by 31%.
- Designed and developed backend servers using Java and Python for different clients.
