### Courage I had

to take a sinking ship and make it float

### Vaionex's growth

from team of 4 to 30+ developers

### Empowering Rural Communities in tech

As a member of Google Student Club, empowered rural communities through tech education

## SKILLS

### Languages

Javascript

Python

Java

Typescript

### Databases

Firebase

MongoDB

MySQL

PostgreSQL

AWS

GCP

### Others

React

Next.js

Gatsby.js

Node.js

Express.js

React Native

GraphQL

Docker

Tailwind CSS

Redux

Web 3

Trello

## PROJECTS

### Relysia

📅 2022 - 2022    📍 USA  
🔗 <https://www.relysia.com/>

A cutting-edge web 3 digital assets' management platform that leverages blockchain technology to secure and streamline the management of digital assets for individuals and businesses.

- Increased assets under management (AUM) by 50%
- Enhance security and reduce risk of theft or loss
- Streamline operations with real-time asset updates

### Yeschef

📅 2020 - 2020    📍 USA  
🔗 <https://yeschef.me/>

Cooking streaming platform revolutionizing the culinary world by offering video lessons taught by globally renowned chefs, accessible to anyone and everywhere.

- Boosted user engagement with seamless streaming experiences, resulting in 50% increase in daily active users
- Implemented robust payment system, driving a 25% increase in revenue for the platform

### Centi

📅 2021 - 2021    📍 USA  
🔗 <https://centi.ch/>

Centi is a web 3 blockchain-based platform that offers real-time micropayments with minimal costs. Ideal for both consumers and businesses to tip their favorite artists or enable paid content through integration.

- Implementing efficient payment and tokenization systems using web 3 blockchain technology
  - Enabling real-time micropayments with low costs for both consumers and businesses
- Contributing to the growth and increased user engagement of the platform by providing seamless payment experiences for users

## STRENGTHS

### Project Management

I have honed my project management skills through hands-on experience in leading teams and delivering successful projects on time and within budget

### Project Lead

I have served as a project lead on multiple complex software development projects, demonstrating my ability to balance technical and communication skills, as well as my experience in managing timelines, budgets, and resources

### Database Management

I have acquired a deep understanding of database design and administration, through years of experience working with various databases such as MongoDB, MySQL, and PostgreSQL, and a solid understanding of data modeling, data warehousing and big data processing

### Team Lead

As a team lead, I have led cross-functional teams, providing guidance and direction, managing conflict and delivering results.

## EDUCATION

### B.S. in Computer Science

**University Of People**  
📅 2016 - 2020

### A-levels in STEM and Business

**University of Cambridge**  
📅 2014 - 2016
